

CD244:40. I think Regis Kennedy had to know better/more. The "wife" is Jeanne Hack. In interviewing Beller, natch, Kennedy picked the wrong guy. He should have gotten one of the bartenders, I think Al Thompson, a sort of literary adviser to KT. What better reason is there for his not doing it? The Bourbon House was then a rather popular place. Kennedy also omits the fight KT had there and reference to the other and earlier KT reports.
